EMAIL:  
lungelofarm@gmail.com

I am passionate about front-end, back-end development, and full-stack development as I am currently pursuing an NQF Level 5 qualification in Mobile and Web Development part-time at IIE Varsity College, I am excited about the opportunity to contribute to your team.

My academic journey has provided me with a foundation in front-end and back-end technologies. I have hands-on experience with HTML, CSS, JavaScript, and frameworks like React on the front end, as well as Node.js, Express, and databases such as PostgreSQL and MongoDB on the back end. This skill set allows me to build robust, scalable web applications along with Mobile applications also.

In addition to my technical skills, I possess strong problem-solving abilities and a keen eye for detail. I thrive in collaborative environments where creativity and innovation are encouraged, and I am always eager to learn new technologies and improve my skills.

I have attached my resume for your review. Thank you for considering my application. I look forward to discussing how I can contribute to your company's success.
